

Learning With TS Academy Content Challenge

Objective

Create a short, authentic video that documents your learning experience as a TS Academy student. This content should highlight your journey, growth, and real experiences, as well as inspire others who are considering learning with TS Academy.

Your Task

Create relatable and authentic content that shows what your learning journey at TS Academy has been like. Feel free to express your creativity in a way that feels natural to you while clearly passing your message across.

Your video should highlight one or more of the following:

- What you are learning in your program
- How the classes are structured and delivered (live sessions, recordings, clarity of teaching, etc.)
- Practical skills you've gained from the program.
- How your tutor has contributed to your growth

Creative Direction & Tone

You can film this as:

- A day-in-my-life
- A talking-head reflection
- A mix of short clips + voiceover

Choose a format that feels natural to you; make it your own. Be creative and flexible with your output. Be authentic, energetic, and creative. Write your own script, be real with your journey. Show personality and avoid sounding overly scripted or like a corporate ad.

Rewards

- 10 winners will be selected; the top 5 videos will be rewarded with brand-new phones, and their videos will be featured on TS Academy's main pages.
- The next 5 runners-up will receive cash prizes.

Deliverable

- One short video (40–60 seconds)
- Post the video on your Instagram and/or TikTok page
- Collaborate with TS Academy on Instagram [@thetscommunity](#) and/or tag us on TikTok [@tsacademyonline](#)
- Use the hashtag #LearningwithTSAcademy
- Submit the link to the video [here](#)

Deadline

Your video should be posted on/before August 17th, 2026.
